Sirs,

Attached are Flint-related documents set for release to the requester by August 29. The resultant set of documents that will be produced will include changes I made during my “2<sup>nd</sup> Level Review” of the documents within the Relativity workspace (link included, below). I felt that the implications and seriousness of the subject matter, as well as the high-level at which much of the conversations are held, warranted a look by one of you gentlemen. Please take a look. Thanks.

Bests,

Fred

All:

I am preparing the August release for Flint. These represent the last of the 212 collection.

The documents in this set have all been released to Congress, and have been reviewed by R5 attorneys and OPA.

Last month, EPA released a set of largely non-controversial documents. The August release is, in my opinion, more likely to generate media attention.

I've attached two documents:

- 1) all documents marked for upper management review (1033 pages)
- 2) a subset of those documents that I want to highlight for your attention. (46 pages)

The August release is due to the requesters by August 29<sup>th</sup>.

**Please review these documents and let me know by Tuesday the 16<sup>th</sup> if there are items you would like to discuss/ review further.**

I need to finalize the release for production so that it can go out for final awareness review by Monday, August 22, 2016.

Best,

Denise
